

2023 Wholesale Spring
Price Guide

WHEELER'S

Laura's Lane Nursery LLC

Providing quality trees & service since 1959!

WHEELER'S

Laura's Lane Nursery LLC

50th Wedding Anniversary

Dear Friends,

It is always exciting to start a new growing season. With that said, it is our desire to express our gratitude to our loyal customers for another successful harvest season.

We hope that you will give us the opportunity to fulfill your planting needs.

Please look over the new price list and send your 2023 order as soon as possible to insure the size and species to fit your planting needs. Our staff will be happy to help you in your planting decisions. As always, we promise to provide quality trees and excellent customer service.

We look forward to working with you.

Sincerely,

Joseph & Beatrice Wheeler

Call our friendly staff to place an order.

PINE

BUNDLES PER PER PER
OF 50-299 300-4999 5,000 & up

LESS THAN 50 TREES, PLEASE ADD 25¢ PER TREE.

JACK PINE (PINUS BANKSIANA)

Grows 55-100 feet. Short-needed (1-1½"), prefers full sun, will tolerate poor soil conditions. Timber species. Tree sizes are approximate.

6-12" 2 YR. S. (50's) \$1.00 \$335 \$-----

NORWAY PINE (PINUS RESINOSA) "RED PINE"

Grows over 35 feet. Rapid growing tree with 4-6" long, glossy-green needles. It has many uses: timber, windbreak, ornamental & Christmas tree. Does well in sandy soil. Tree sizes are approximate.

4-8" 2 YR. S. (50's) \$1.00 \$275 \$-----
6-12" 3 YR. S. (25's) \$1.10 \$335 \$-----
7-15" 2-2 T.P. (25's) \$2.50 \$790 \$-----
16" & UP X-LG. T.P. (25's) \$3.85

WHITE PINE (PINUS STROBUS LAKE STATES)

Vigorous growing, open tree with long, soft bluish-green needles. Used in ornamental plantings. Tolerates shade and grows well in sandy and other soils. Grows over 35 feet. Tree sizes are approximate.

4-8" 2 YR. S. (50's) \$1.00 \$275 \$-----
6-12" 3 YR. S. (25's) \$1.10 \$335 \$325
7-15" 2-2 T.P. (25's) \$2.50 \$790 \$760
16" & UP X-LG. T.P. (25's) \$3.85 \$350

SPRUCE

BUNDLES PER PER PER
OF 50-299 300-4999 5,000 & up

LESS THAN 50 TREES, PLEASE ADD 25¢ PER TREE.

BLACK HILL SPRUCE (PICEA GLAUCA DENSATA)

Grows over 35 feet. Short, stiff dark green needles and a spicy scent. Extremely hardy, withstanding heat and dry growing conditions. Used as ornamental, windbreak or as a Christmas tree. Origination: Black Hills, SD. Elevation 5500-6500 ft. Seed Zone #621. Tree sizes are approximate.

4-8" 2 YR. S. (50's) \$1.10 \$390 \$-----
7-15" 2-3 T.P. (25's) \$2.85 \$825 \$-----
16" & UP X-LG. T.P. (25's) \$3.85

BLACK SPRUCE (PICEA MARIANA)

Height: 30 to 40 feet, occasionally 70 feet. Hardiness zone 2-5. Stiff bluish green needles — likes cold temperatures but grows best in exposure to full sunlight. Thrives in moist well-drained soils. Also known as "Swamp Spruce". Tree sizes are approximate.

6-12" 2 YR. S. (50's) \$1.10 \$335 \$-----
7-15" 2-2 T.P. (25's) \$2.85 \$815 \$-----
16" & UP X-LG. T.P. (25's) \$3.85

COLORADO BLUE SPRUCE

(PICEA PUNGENS GLAUCA)

Grows over 35 feet. Densely formed tree with stiff, silvery-blue to bluish-green needles. An excellent ornamental and background tree. Thrives in dry, well-drained soil. Origination: San Juan Forest - Wolf Creek Area. Elevation 8000-8500 ft. Seed Zone #246. Tree sizes are approximate.

6-12" 2 YR. S. (50's) \$1.10 \$335 \$-----
9-14" 3 YR. T.P. (25's) \$2.20 \$390 \$-----
7-15" 2-2 T.P. (25's) \$2.85 \$815 \$-----
16" & UP X-LG. T.P. (25's) \$3.85 \$350

QUANTITY DISCOUNTS:

50 trees of the same kind and size

may be bought at the 100 rate,

300 at the 1000 rate, or 5000 & up rate.

Less than 50 trees, please add 25¢ per tree.

CARING FOR TREES ON ARRIVAL

- 🌲 Bundles should be opened as soon as trees are received, and roots should be moistened. Plant the trees as soon as possible.
- 🌲 If unable to plant upon receipt of trees, store in a cool area away from the sun and wind, loosen wrapping, and make sure trees are slightly moist by watering the paper/moss around the roots.
- 🌲 DO NOT SOAK TREES IN BUCKETS OF WATER.
- 🌲 When planting, either by hand planting bars or machine planting, be sure the roots are deeply secured in the ground and the soil around the tree is firmly packed.

SPRUCE CONTINUED

LESS THAN 50 TREES, PLEASE ADD 25¢ PER TREE.

NORWAY SPRUCE (PICEA ABIES)

Grows over 35 feet. Fastest growing spruce with dark green needles and draping branches. Good ornamental or windbreak tree. Grows well in most conditions. Tree sizes are approximate.

6-12" 2 YR. S.	(50's)	\$1.10	\$3.35	\$-----
9-14" 3 YR. S.	(25's)	\$2.20	\$3.90	\$350
7-15" 2-2 T.P.	(25's)	\$2.85	\$815	\$795
16" & UP X-LG. T.P.	(25's)	\$3.85	\$3.50	

WHITE SPRUCE (PICEA GLAUCA LAKE STATES)

Moderate growing tree with bluish-green needles, and short, dense branches. A popular Christmas tree as well as an ornamental and windbreak tree. Endures drought conditions well. Tree sizes are approximate.

6-12" 2 YR. S.	(50's)	\$1.10	\$3.35	\$-----
9-14" 3 YR. S.	(25's)	\$2.20	\$3.90	\$-----
7-15" 2-2 T.P.	(25's)	\$2.85	\$815	\$795
16" & UP X-LG. T.P.	(25's)	\$3.85	\$3.50	

FIR

LESS THAN 50 TREES, PLEASE ADD 25¢ PER TREE.

BALSAM FIR (ABIES BALSAMEA-EASTERN STRAIN)

The traditional Christmas tree. Excellent fragrance with good needle retention. Prefers well-drained, acidic, moist soil. Full to partial sun. Tree sizes are approximate.

3-5" 2 YR. S.	(50's)	\$2.00	\$380	\$-----
5-10" 3 YR. S.	(25's)	\$2.25	\$465	\$-----
12-18" 2-3 T.P.	(25's)	\$3.25	\$970	\$-----
18" & UP X-LG. T.P.	(25's)	\$3.85		

BRACKETED BALSAM FIR (ABIES BALSAMEA VAR PHANEROLEPIS)

The Bracketed Balsam Fir is an evergreen fir native to the northeastern United States and Canada. Growing upwards of 50 ft with short dark-green to blue-green needles. It is an excellent Christmas tree but may be used as a conifer in landscaping. Prefers well-drained, acidic, moist soil. Full to partial sun. Tree sizes are approximate.

3-5" 2 YR. S.	(50's)	\$2.00	\$380	\$-----
5-10" 3 YR. S.	(25's)	\$2.25	\$465	\$-----
12-18" 2-3 T.P.	(25's)	\$3.25	\$985	\$-----
18" & UP X-LG. T.P.	(25's)	\$3.85		

CANAAN FIR (ABIES BALSAMEA VAR PHAEROLEPIS)

Height 30-70 ft. Canaan Fir has many similarities to both Fraser and Balsam Fir. May be more tolerant of wetter soil and a variety of soil types. Makes an excellent Christmas tree and Landscape tree. Tree sizes are approximate.

3-5" 2 YR. S.	(50's)	\$2.00	\$380	\$-----
5-10" 3 YR. S.	(25's)	\$2.25	\$465	\$-----
12-18" 2-3 T.P.	(25's)	\$3.25	\$970	\$-----
18" & UP X-LG. T.P.	(25's)	\$3.85		

CONCOLOR FIR (ABIES CONCOLOR - CIBOLA)

"White Fir" - Soft needles vary from silvery-blue to silvery-green. Grows best in well-drained soil and full sun. (Will not do well in heavy, clay soil.) Grows over 35 ft. Tree sizes are approximate.

5-10" 2 YR. S.	(50's)	\$2.00	\$640	\$-----
----------------	--------	--------	-------	---------

FIR CONTINUED

LESS THAN 50 TREES, PLEASE ADD 25¢ PER TREE.

COOK'S BALSAM FIR (ABIES BALSAMEA - COOK'S BLUE)

A traditional Christmas Tree with excellent fragrance and good needle retention. Needles show varying degrees of blue coloring after approx. 3 years. Prefers well-drained acidic, moist soil. Full to partial sun. Tree sizes are approximate.

3-5" 2 YR. S.	(50's)	\$2.00	\$380	\$-----
5-10" 3 YR. S.	(25's)	\$2.25	\$465	\$-----
12-18" 2-3 T.P.	(25's)	\$3.25	\$970	\$-----
18" & UP X-LG. T.P.	(25's)	\$3.85		

FRASER FIR (ABIES FRASERI)

Often referred to as the Cadillac of the Christmas trees. This tree not only has an excellent fragrance but exceptional needle retention as well. Likes cool, moist, well-drained soil. Full to partial sun. (Will not do well in heavy, wet clay soil.) Tree sizes are approximate.

3-5" 2 YR. S.	(50's)	\$2.00	\$380	\$-----
6-12" 3 YR. S.	(25's)	\$2.25	\$465	\$-----
6-12" 2-2 T.P.	(25's)	\$3.00	\$955	\$-----
12-18" 2-3 T.P.	(25's)	\$3.25	\$985	\$-----
18" & UP X-LG. T.P.	(25's)	\$3.85		

FRASER/BALSAM HYBRID FIR (ABIES FRASERI X BALSAMEA)

This tree combines the qualities of both the Balsam Fir and Fraser Fir, producing a beautifully shaped tree with excellent needle retention similar to the Fraser Fir and the fragrance of the Balsam Fir. Tree sizes are approximate.

3-5" 2 YR. S.	(50's)	\$2.00	\$380	\$-----
5-10" 3 YR. S.	(25's)	\$2.25	\$465	\$-----

KOREAN FIR (PINACEAE ABIES KOREANA)

Best grown in rich, moist, slightly acidic, well-drained soil. The needles of the Korean Fir are shiny green above and a blue-silver below. Full sun to partial shade. (Will not do well in wet clay soil) Height 30-50 ft. Width 6-12 ft. Tree sizes are approximate.

3-5" 2 YR. S.	(50's)	\$2.00	\$380	\$-----
5-10" 3 YR. S.	(25's)	\$2.25	\$465	\$-----
7-15" 2-2 T.P.	(25's)	\$3.25	\$970	\$-----
16" & UP X-LG. T.P.	(25's)	\$3.85		

ARBORVITAE

LESS THAN 50 TREES, PLEASE ADD 25¢ PER TREE.

DARK GREEN ARBORVITAE (THUJA OCCIDENTALIS 'NIGRA')

Grows to 30-35 feet tall and 10-15 feet wide. Denser form of American Arborvitae that is fast growing with a deep green color. Used mainly for screening or hedge. Tree sizes are approximate.

6-12" 1-2 T.P.	(25's)	\$3.25	\$1.04	\$-----
----------------	--------	--------	--------	---------

EASTERN ARBORVITAE (THUJA OCCIDENTALIS 'WHITE CEDAR')

Height: 30-40 feet - Width: 10-15 feet. Fan-like glossy leaves provide year-round color. Forms a wind tight barrier when used for screening or as hedging. Prefers heavy damp areas, but adapts well to other soil types. Tree sizes are approximate.

3-5" 2 YR. S.	(50's)	\$2.00	\$420	\$-----
12-16" 2-2 T.P.	(25's)	\$3.25	\$985	\$-----
16" & UP X-LG. T.P.	(25's)	\$3.85		

EMERALD GREEN ARBORVITAE (THUJA OCCIDENTALIS 'SMARAGD')

Deep rich emerald green needles year-round. Naturally grows in a compact pyramidal form so pruning is rarely needed. Grows well in almost any well-drained soil and prefers full to partial sun. Will reach 8-10 ft. high, 2 ft. wide in about 10 years. Tree sizes are approximate.

6-12" 1-2 T.P.	(25's)	\$3.25	\$1.04	\$-----
----------------	--------	--------	--------	---------

TECHNY ARBORVITAE (THUJA OCCIDENTALIS 'TECHNY')(ROOTED CUTTINGS)

20 feet tall and 8 feet wide at maturity. Very dark green color year round. Medium growth rate and is very hardy. Used for screening and foundation plantings. When young, it grows bushy, but when it gets to 3-4 feet, it grows more pyramidal. Tree sizes are approximate.

6-12" 1-2 T.P. (R.C.)	(25's)	\$3.25	\$1.04	\$-----
16" & UP X-LG. T.P.	(25's)	\$3.85

DECIDUOUS TREES & SHRUBS

LESS THAN 50 TREES, PLEASE ADD 25¢ PER TREE.

BUNDLES OF 50-299 300-4999

BIRCH - NATIVE WHITE (BETULA Papyrifera)

Grows 50-70 ft. On young trees the bark is brown to bronze, but turns white as the tree ages. Tolerates alkaline soils well. *Tree sizes are approximate.*

9-14" 1 YR. S. (25's) \$3.00 \$920

BIRCH - WHITE

(JAPANESE WHITE-PLATYPHYLLA JAPONICA)

Moderate to fast growth with a mature height up to 70 ft. Bark is tighter than Native White Birch – doesn't peel as readily. Birch-borer resistant. Moist, well-drained soil – full sun. *Tree sizes are approximate.*

9-14" 1 YR. S. (25's) \$3.00 \$920

CATALPA-NORTHERN (CATALPA SPECIOSA)

White, showy flowers. Large heart-shaped leaves, dangling beanlike seed pods. Height 40-60 feet tall. Spread 20-40 feet. Medium to fast growth rate. Does well in full sun to partial. *Tree sizes are approximate.*

12-18" 2 YR. S. (25's) \$3.50 \$1.16

CHOCKECHERRY - COMMON (PRUNUS VIRGINIANA)

Small tree with white flowers and dark purple fruit that is edible. Very hardy in all zones. Renowned for making of jelly & wine. Good food & cover for wildlife. *Tree sizes are approximate.*

12-18" 1 YR. S. (25's) \$3.50 \$1.39

CRAB - MIDWEST (MALUS BACCATA VAR. MANDSHURICA)

Grows 15 ft. A moderately rapid growing medium size tree. Densely branched and oval shaped. Blossoms snowy white. Dark olive green leaves. Fruit size 1/4-1/2" diameter. Excellent for windbreak and wildlife habitat. *Tree sizes are approximate.*

12-18" 1 YR. S. (25's) \$3.50 \$1.65

CRAB - RED SPLENDOR

(MALUS X RED SPLENDOR)

Grows 15-25 ft. Spreads 20 ft. Red flower buds open into large deep pink single flowers. The fruit is dark and showy. The foliage is dark reddish green in the summer, and turns a beautiful reddish purple in the fall. Upright spreading form. *Tree sizes are approximate.*

12-18" 1 YR. S. (25's) \$3.50 \$1.65

CRANBERRY - AMERICAN Highbush (VIBURNUM TRILOBUM)

Attractive foliage turns red and orange in the fall. Flat clusters of white flowers followed by red berries. Grows to 8 ft. *Tree sizes are approximate.*

12-18" 2 YR. S. (25's) \$3.50 \$1.16

DOGWOOD - RED OSIER (CORNUS SERICEA)

Grows 7-9 ft. Spreads 8-12 ft. A broad erect grower with dark blood red branches. White flowers followed by white berries. Good for soil erosion and food and cover for wildlife. *Tree sizes are approximate.*

12-24" 2 YR. S. (25's) \$2.75 \$550

DOGWOOD - SILKY (COMUS AMOMUM)

A native shrub. Grows 6-8 ft. high with its leaves silky to the touch beneath. Flowers are white, fruit blue. Hardy everywhere. *Tree sizes are approximate.*

12-24" 2 YR. S. (25's) \$2.75 \$550

ELDERBERRY (SAMBUCUS CANADENSIS)

Height and spread 5-12 ft. Fast growing small tree/shrub. Tolerates wide range of growing conditions. Small white flowers grow in large clusters in early summer followed by edible purplish black fruit. Attractive to birds. *Tree sizes are approximate.*

12-18" 1 YR. S. (25's) \$3.50 \$1.32

HAZELNUT (CORYLUS AMERICANA)

Small shrub often in clumps reaching 12 ft. in height. Edible brown nuts. Grows best in moist, well-drained soils but will adapt to most types of soils. Full sun or deep shade. Attracts wildlife such as deer, grouse, turkeys, pheasants & quail. *Tree sizes are approximate.*

12-18" 2 YR. S. (25's) \$3.50 \$1.43

HEMLOCK - CANADIAN (TSUGA CANADENSIS)

Grows to 40-70 ft. Spreads 25-35 ft. Moist soil with good drainage. Shade tolerant. Can be pruned to maintain desired height. Lacy, graceful growth with yellow-green needles in spring changing to glossy green. *Tree sizes are approximate.*

3-5" 2 YR. S. (25's) \$2.75 \$400

6-12" 2-2 T.P. (25's) \$3.50 \$1.31

LILAC - COMMON (SYRINGA VULGARIS)

Grows 12-15 ft. Spreads 10-12 ft. Delicate fragrant purple flowers in May. A perfect informal hedge or screen. Suckers freely. *Tree sizes are approximate.*

12-18" 2 YR. S. (25's) \$3.50 \$1.16

MAPLE - RED (ACER RUBRUM)

Mature height 50-60 ft. Shade tree with glossy green leaves. Tolerates wet soils. Fall colors vary from yellow to scarlet. *Tree sizes are approximate.*

12-18" 2 YR. S. (25's) \$3.50 \$1.32

MAPLE - SILVER (ACER SACCHARINUM)

Very hardy, easy to grow tree, and will tolerate a wide variety of soils. One of the best trees to grow where few others will survive. Grows to 60 ft. *Tree sizes are approximate.*

12-18" 1 YR. S. (25's) \$3.50 \$1.16

MAPLE - SUGAR (ACER SACCHARUM)

Slow to medium growth. Height-100 ft. Outstanding native shade tree. Dark green leaves turn yellow to orange to fiery red in fall. Grows in most soil types. Sap used for maple syrup. Used for ornamental, lumber, & wildlife habitat. *Tree sizes are approximate.*

12-18" 1 YR. S. (25's) \$3.50 \$1.43

LESS THAN 50 TREES, PLEASE ADD 25¢ PER TREE. Tree sizes are approx. only.

BUNDLES OF 50-299 300-4999

OAK BURR (QUERCUS MACRUCARPA)

Tolerates a variety of soil conditions. Leaf color is dark green in summer and yellow to yellowish brown in fall. Height 70-80 ft. Tree sizes are approximate.

12-18" 1 YR. S.....	(25's)	\$3.50	\$1.43
---------------------	--------	--------	--------

OAK - RED (QUERCUS RUBRA)

A wide, massive 80-90 ft. shade tree. Fast growing and long-lived oak. This acorn tree provides food and shelter for wildlife and can tolerate city conditions. Also commercially valuable to the lumber market. Tree sizes are approximate.

12-36" 2 YR. S.	(25's)	\$3.50	\$1.26
----------------------	--------	--------	--------

OAK - WHITE (QUERCUS ALBA)

Hardy deciduous shade tree. Majestic rounded shape. Dark green leaves, typical oak leaf shape that turns bronze in fall. Slow growing, extremely long lived (300 yrs. or more). Grows 100 ft. or higher. Tree sizes are approximate.

12-18" 2 YR. S.	(25's)	\$3.50	\$1.45
----------------------	--------	--------	--------

OAK - SWAMP WHITE (QUERCUS BICOLOR)

Height: 50-60 ft. Growth rate - moderate. Does well in moist to wet soils, also in upland areas. Shiny dark green leaves. Yellow to purple fall color. Their sweet acorns are great for wildlife. Tree sizes are approximate.

12-18" 2 YR. S.	(25's)	\$3.50	\$1.45
----------------------	--------	--------	--------

PLUM - AMERICAN (PRUNUS AMERICANA)

Grows 15-20 ft. A small tree or large shrub. White flowers in early May. Edible fruits - red or yellow. Very hardy & drought resistant. Excellent for wildlife plantings. Tree sizes are approximate.

12-18" 1 YR. S.....	(25's)	\$3.50	\$1.52
---------------------	--------	--------	--------

POPLAR - HYBRID (POPULUS DELTOIDS x POPULUS NIGRA)

Grows approximately 50 ft. Spreads 30 ft. A fast growing tree with large leaves giving lots of shade in a hurry. Soil adaptable. (Rooted cuttings). Tree sizes are approximate.

12-24" S. (R.C.).....	(25's)	\$3.50	\$1.00
-----------------------	--------	--------	--------

SERVICEBERRY - JUNE BERRY (AMELANCHIER ALNIFOLIA)

Grows 6-20 ft. Small to medium suckering shrub that bears white flowers followed by edible fruit in June-July. Tree sizes are approximate.

12-18" 2 YR. S.	(25's)	\$3.50	\$1.32
----------------------	--------	--------	--------

TAMARACK - AMERICAN LARCH (LARIX LARICINA)

A medium-sized tree, 40-80' tall, open pyramidal crown & shallow wide-spreading root system. Best growth in moist areas & better-drained uplands. Tree sizes are approximate.

12-18" 2 YR. S.	(25's)	\$3.50	\$1.15
----------------------	--------	--------	--------

IMPROVE YOUR PLANTING SUCCESS

Following these simple steps will help improve your planting success:

- **Site preparation.** Your trees will get off to a better start if you spend time prior to planting reducing or removing grass, weeds and brush. If not controlled, these items can reduce the ability of the trees to take hold.
- **Decide desired end result and determine quantity of trees needed.**
Christmas tree harvest: plant 6 ft. apart (1100-1200 trees per acre).
Windbreaks: plant 6-8 ft. apart. Divide the length of row desired by 6 or 8 and figure number of trees needed (12-16 trees per 100 linear feet).
Reforestation: plant 8-10 ft. apart (500-700 trees per acre).
Ornamental plantings: 4'x5' planting requires about 2,200 seedlings per acre. A 5'x5' planting requires about 1,700 seedlings per acre (1 acre = 43,560 sq. ft. - allow for access rows).
- **Determine tree type.** You must consider soil type, sun conditions, water drainage and other locational factors and match them with type of tree that thrives under those conditions. Not all trees do well under all conditions.
- **Timing your planting.** We suggest you try to schedule delivery so that you can plant your trees as soon as possible after their arrival. If you can't start planting upon arrival, store the trees in a cooler or other cool area out of the sun and wind. Open them slightly and make sure trees are slightly damp.
- **Plant trees properly.** Again - plant your stock as soon as possible after receipt of trees. You can plant by hand using a heavy spade or spud, or you can use a machine. In either case, make sure the roots are deeply secured in the ground and the soil around the tree is firmly packed.
- **Bigger seedlings and transplants** with full root masses need special attention during planting. Nothing will save a tree that is poorly planted. Extra large seedlings and transplants need extra care due to their size.
- **Site maintenance.** Be sure to control weeds with herbicides and/or mowing after planting. The weeds compete with the trees for nutrients, moisture and fertilizer and can affect their growth if not controlled. Discuss your options with your local chemical dealer.
- **Harvest time.** If you're planning to harvest your crop, keep in mind that natural occurrences (late frost, dry conditions, disease) can all affect growth rate. In general, the more care (fertilizer, weed/pest control, water) the trees receive, the sooner they'll grow to a harvestable size. The type of tree you select will also affect harvest time.

CLAIMS

- **Buyer and no others must make any claims in writing within 5 days of delivery. Trees must be returned for replacement or refund.**
- Buyer is responsible for return freight charges on any or all claims.
- Seller will make every effort to ship merchandise to buyer's shipping address on the date requested; however, Seller shall not be liable for reasonable delays caused by weather conditions beyond Seller's control. No cancellations are allowed due to weather conditions or coronavirus issues.
- Under no circumstances shall the Seller be liable for a sum which exceeds the total of the order.
- Not responsible for trees held beyond scheduled pick-up date.
- Seller shall not be liable for any or all stock damage or failure due to conditions over which we have no control such as weather (frost, flood or hail), watering, planting site, improper planting, soil conditions, soil related root diseases, and improper handling of plants.

STOCK QUALITY

- We do our best to produce healthy, viable plants for all our customers. In spite of the extreme care we give them, numerous conditions over which we have no control often govern results that customers may have with plants.
- Some of these conditions are: weather, watering, planting site, improper planting, soil conditions, soil related root diseases, injury and improper handling of plants. Because of these conditions of which we can exercise no control, it is impossible to guarantee planting results and continued growth of plants.
- All stock is state inspected and graded to meet and surpass American Association of Nurserymen grade standards, and packed very carefully for better growth and shape when transplanted.

TERMS OF SALE

- Unless otherwise stated, all prices are F.O.B. Plainfield, WI 54966.
- A deposit of 25% is required on all orders with the exception of orders less than \$100.00-these require full payment when order is made. The balance due must be paid on pickup or prior to the shipping date. If buyer fails to pay the balance due, interest shall be charged on the balance due @1-1/2% per month (18% APR) from the date of the receipt of the merchandise.
- If 1) the buyer fails to pickup, 2) buyer refuses delivery, or 3) delivery cannot be made to shipping address provided on the order form, buyer will be liable for payment of the balance due.
- The seller is not responsible for items not picked up by the pickup date.

- The buyer forfeits the deposit on cancellations after February 1st.
- Wheeler's Laura's Lane Nursery, LLC reserves the right to cancel a part or all of stock ordered, should there be weather (frost, flood, hail, or fire) related injury, wildlife damage, error in count, or other causes beyond our control.
- Seller's liability ceases with the delivery of the stock to the carrier. Thereafter, if breakage or damage occurs or if a stock is delayed in transit, claims should be made with the carrier immediately.
- Generally, conifer seedlings are in bundles of 50 and transplants are in bundles of 25.
- Orders should be paid in full if shipping within 2 weeks from receipt of invoice.
- Weather predicts Shipping/Pick-up season approx. April 10th to May 10th.
- Additional freight charges will be billed for orders exceeding the shipping cost.

Terms of Sale for Potted Stock/Container Grown

We do our best to produce healthy viable plants that are state inspected for our customers. In spite of our extreme care we give them, numerous conditions over which we have no control often govern. Such conditions may be but not limited to: weather, watering, planting site, improper planting, soil conditions, soil related root diseases, and improper handling of potted stock. Because of these conditions that we have no control over, it is impossible to guarantee continued plant health and growth of potted stock.

Customer acknowledges at pickup no warranties, credits or refunds on any potted stock and container grown. Under no circumstances shall the seller be liable for a sum which exceeds the total order. Potted stock must be inspected on day of pick up by the customer. All potted stock may vary in size as it is field grown and sold as field run.

Greetings,

Another year has passed and so has the quarantine protocols, mask mandates and no large events, what a relief. I am very thankful our family and friends stayed healthy and we made it through another season. Another no surprise is the economy, stock market crashing and don't even get me started on crypto. The high gas prices and increased material costs, increased wages, increased fertilizer and chemicals all having a direct impact on the nursery and farmers. This spring was like no other, no matter how prepared and ready we were for the spring harvest, Mother Nature who directly controls our harvest had different plans. Extended cold temperatures with little snow and deep frost caused what felt like the longest spring season I can remember. I want to personally thank all of our customers for the understanding and patience as the weather caused for a very difficult extended season as it took a longer time frame to be able to pull, sort and package the seedlings and transplants.

As summer has finally started, this year's transplants and seedlings are growing and looking phenomenal. Although, this year it seems like the weeds are growing just as well and have kept our weeder extremely busy in the nursery. We have made a big investment in the way we harvest our stock with a locally built custom harvester that streamlined and cut down on labor. The new way we load and unload the nursery stock not only is saving our backs but also increasing the speed that the trees arrive to and from the field. With all these improvements I am looking forward to another spring season, seeing everyone's faces and rehoming beautiful nursery stock that improves our great earth. We will have a limited supply of nursery stock this season. I'd highly recommend calling and placing your 2023 spring order as soon as possible.

See you next spring,
Joseph A. Wheeler Jr.
