COOK'S BALSAM FIR (ABIES BALSAMEA - COOK'S BLUE)
 A traditional Christmas Tree with excellent fragrance and good needle retention. Needles show varying degrees of blue coloring after approx. 3 years. Prefers well-drained acidic, moist soil. Full to partial sun. *Tree sizes are approximate.*

3-5" 2 yr. S.	(50's)	\$3.00	\$2.00	\$4.00
5-10" 3 yr. S.	(25's)	\$3.25	\$2.25	\$4.80
6-12" 2-2 T.P. (SOLD OUT)	(25's)	\$4.00	\$3.00	\$9.80
12-18" 2-3 T.P.	(25's)	\$4.25	\$3.25	\$9.95
18" & UP X-LG. T.P.	(25's)	\$4.95	\$3.95	\$-----

FRASER FIR (ABIES FRASERI)
 Often referred to as the Cadillac of the Christmas trees. This tree not only has an excellent fragrance but exceptional needle retention as well. Likes cool, moist, well-drained soil. Full to partial sun. (Will not do well in heavy, wet clay soil.) *Tree sizes are approximate.*

3-5" 2 yr. S.	(50's)	\$3.00	\$2.00	\$4.00
5-10" 3 yr. S.	(25's)	\$3.25	\$2.25	\$4.80
12-18" 4 yr. S.	(25's)	\$3.25	\$2.25	\$4.90
6-12" 2-2 T.P.	(25's)	\$4.00	\$3.00	\$9.80

16" & UP X-LG. T.P.	(25's)	@\$4.95EA	\$3.95	\$-----

CARING FOR TREES ON ARRIVAL

- Bundles should be opened as soon as trees are received, and roots should be moistened. Plant the trees as soon as possible.
- If unable to plant upon receipt of trees, store in a cool area away from the sun and wind, loosen wrapping, and make sure trees are slightly moist by watering the paper/moss around the roots.
- DO NOT SOAK TREES IN BUCKETS OF WATER.
- When planting, either by hand planting bars or machine planting, be sure the roots are deeply secured in the ground and the soil around the tree is firmly packed.

DECIDUOUS TREES & SHRUBS

	BUNDLES OF	25-75	100-299	300 & UP
--	------------	-------	---------	----------

BIRCH - NATIVE WHITE (BETULA PAPIRYFERA) "PAPER BIRCH"
 Grows 50-70 ft. On young trees the bark is brown to bronze, but turns white as the tree ages. Tolerates alkaline soils well. *Tree sizes are approximate.*

9-14" 1 yr. S.	(25's)	\$4.00	\$3.00	\$1.00
----------------	--------	--------	--------	--------

BIRCH - WHITE (JAPANESE WHITE-PLATYPHYLLA JAPONICA)
 Moderate to fast growth with a mature height up to 70 ft. Bark is tighter than Native White Birch – doesn't peel as readily. Birch-borer resistant. Moist, well-drained soil – full sun. *Tree sizes are approximate.*

9-14" 1 yr. S.	(25's)	\$4.00	\$3.00	\$1.00
----------------	--------	--------	--------	--------

CHOKECHERRY - COMMON (PRUNUS VIRGINIANA)
 Small tree with white flowers and dark purple fruit that is edible. Very hardy in all zones. Renowned for making of jelly & wine. Good food & cover for wildlife. *Tree sizes are approximate.*

12-18" 1 yr. S.	(25's)	\$4.50	\$3.50	\$1.65
-----------------	--------	--------	--------	--------

CRAB - MIDWEST (MALUS BACCATA VAR. MANDSHURICA)
 Grows 15 ft. A moderately rapid growing medium size tree. Densely branched and oval shaped. Blossoms snowy white. Dark olive green leaves. Fruit size 1/4-1/2" diameter. Excellent for windbreak and wildlife habitat. *Tree sizes are approximate.*

12-18" 1 yr. S.	(25's)	\$4.50	\$3.50	\$1.80
-----------------	--------	--------	--------	--------

CRAB - RED SPLENDOR (MALUS X RED SPLENDOR)
 Grows 15-25 ft. Spreads 20 ft. Red flower buds open into large deep pink single flowers. The fruit is dark and showy. The foliage is dark reddish green in the summer, and turns a beautiful reddish purple in the fall. Upright spreading form. *Tree sizes are approximate.*

12-18" 1 yr. S.	(25's)	\$4.50	\$3.50	\$1.80
-----------------	--------	--------	--------	--------

CRANBERRY - AMERICAN Highbush (VIBURNUM TRILOBUM)
 Attractive foliage turns red and orange in the fall. Flat clusters of white flowers followed by red berries. Grows to 8 ft. *Tree sizes are approximate.*

12-18" 2 yr. S.	(25's)	\$4.50	\$3.50	\$1.80
-----------------	--------	--------	--------	--------

DOGWOOD - RED OSIER (CORNUS SERICEA)
 Grows 7-9 ft. Spreads 8-12 ft. A broad erect grower with dark blood red branches. White flowers followed by white berries. Good for soil erosion and food and cover for wildlife. *Tree sizes are approximate.*

12-24" 2 yr. S.	(25's)	\$3.75	\$2.75	\$6.60
-----------------	--------	--------	--------	--------

DOGWOOD - SILKY (COMUS AMOMUM)
 A native shrub. Grows 6-8 ft. high with its leaves silky to the touch beneath. Flowers are white, fruit blue. Hardy everywhere. *Tree sizes are approximate.*

12-24" 2 yr. S.	(25's)	\$3.75	\$2.75	\$6.60
24-30" 3 yr. S.	(25's)	\$4.50	\$3.50	\$6.75

ELDERBERRY (SAMBUCUS CANADENSIS)
 Height and spread 5-12 ft. Fast growing small tree/shrub. Tolerates wide range of growing conditions. Small white flowers grow in large clusters in early summer followed by edible purplish black fruit. Attractive to birds. *Tree sizes are approximate.*

12-18" 1 yr. S.	(25's)	\$4.50	\$3.50	\$1.55
-----------------	--------	--------	--------	--------

HAZELNUT (CORYLUS AMERICANA)
 Small shrub often in clumps reaching 12 ft. in height. Edible brown nuts. Grows best in moist, well-drained soils but will adapt to most types of soils. Full sun or deep shade. Attracts wildlife such as deer, grouse, turkeys, pheasants & quail. *Tree sizes are approximate.*

12-18" 2 yr. S.	(25's)	\$4.50	\$3.50	\$1.65
-----------------	--------	--------	--------	--------

LILAC - COMMON (SYRINGA VULGARIS)
 Grows 12-15 ft. Spreads 10-12 ft. Delicate fragrant purple flowers in May. A perfect informal hedge or screen. Suckers freely. *Tree sizes are approximate.*

12-18" 2 yr. S.	(25's)	\$4.50	\$3.50	\$1.55
-----------------	--------	--------	--------	--------

MAPLE - RED (ACER RUBRUM)
 Mature height 50-60 ft. Shade tree with glossy green leaves. Tolerates wet soils. Fall colors vary from yellow to scarlet. *Tree sizes are approximate.*

12-18" 2 yr. S.	(25's)	\$4.50	\$3.50	\$1.55
-----------------	--------	--------	--------	--------

MAPLE - SILVER (ACER SACCHARINUM)
 Very hardy, easy to grow tree, and will tolerate a wide variety of soils. One of the best trees to grow where few others will survive. Grows to 60 ft. *Tree sizes are approximate.*

12-18" 1 yr. S.	(25's)	\$4.50	\$3.50	\$1.55
-----------------	--------	--------	--------	--------

MAPLE - SUGAR (ACER SACCHARUM)
 Slow to medium growth. Height-100 ft. Outstanding native shade tree. Dark green leaves turn yellow to orange to fiery red in fall. Grows in most soil types. Sap used for maple syrup. Used for ornamental, lumber, & wildlife habitat. *Tree sizes are approximate.*

12-18" 1 yr. S.	(25's)	\$4.50	\$3.50	\$1.65
-----------------	--------	--------	--------	--------

OAK BURR (QUERCUS MACRUCARPA)
 Tolerates a variety of soil conditions. Leaf color is dark green in summer and yellow to yellowish brown in fall. Height 70-80 ft. *Tree sizes are approximate.*

12-18" 1 yr. S.	(25's)	\$4.50	\$3.50	\$1.65
-----------------	--------	--------	--------	--------

OAK - RED (QUERCUS RUBRA)
 A wide, massive 80-90 ft. shade tree. Fast growing and long-lived oak. This acorn tree provides food and shelter for wildlife and can tolerate city conditions. Also commercially valuable to the lumber market. *Tree sizes are approximate.*

12-24" 2 yr. S.	(25's)	\$4.50	\$3.50	\$1.35
-----------------	--------	--------	--------	--------

OAK - WHITE (QUERCUS ALBA)
 Hardy deciduous shade tree. Majestic rounded shape. Dark green leaves, typical oak leaf shape that turns bronze in fall. Slow growing, extremely long lived (300 yrs. or more). Grows 100 ft. or higher. *Tree sizes are approximate.*

12-18" 2 yr. S.	(25's)	\$4.50	\$3.50	\$1.65
-----------------	--------	--------	--------	--------

OAK - SWAMP WHITE (QUERCUS BICOLOR)
 Height: 50-60 ft. Growth rate - moderate. Does well in moist to wet soils, also in upland areas. Shiny dark green leaves. Yellow to purple fall color. Their sweet acorns are great for wildlife. *Tree sizes are approximate.*

12-18" 2 yr. S.	(25's)	\$4.50	\$3.50	\$1.65
-----------------	--------	--------	--------	--------

PLUM - AMERICAN (PRUNUS AMERICANA)
 Grows 15-20 ft. A small tree or large shrub. White flowers in early May. Edible fruits - red or yellow. Very hardy & drought resistant. Excellent for wildlife plantings. *Tree sizes are approximate.*

12-18" 1 yr. S.	(25's)	\$4.50	\$3.50	\$1.65
-----------------	--------	--------	--------	--------

POPLAR - HYBRID (POPULUS DELTOIDS X POPULUS NIGRA)
 Grows approximately 50 ft. Spreads 30 ft. A fast growing tree with large leaves giving lots of shade in a hurry. Soil adaptable. (Rooted cuttings). *Tree sizes are approximate.*

12-24" S. (R.C.)	(25's)	\$4.50	\$3.50	\$1.15
------------------	--------	--------	--------	--------

SERVICEBERRY - ALEGHANY (AMELANCHIER LAEVIS)
 Grows to 25 ft. Spreads 15 ft. Small, upright multi-stemmed tree. Soil and moisture widely adaptable. Full sun to partial shade. White flowers followed by purplish-blue fruit. (Delicious in pies & jams.) Orange-red fall foliage. *Tree sizes are approximate.*

12-18" 2 yr. S.	(25's)	\$4.50	\$3.50	\$1.50
-----------------	--------	--------	--------	--------

TAMARACK - AMERICAN LARCH (LARIX LARICINA)
 A medium-sized tree, 40-80' tall, open pyramidal crown & shallow wide-spreading root system. Best growth in moist areas & better-drained uplands. *Tree sizes are approximate.*

12-18" 2 yr. S.	(25's)	\$4.50	\$3.50	\$1.35
-----------------	--------	--------	--------	--------

Terms of Sale for Potted Stock/Container Grown

We do our best to produce healthy viable plants that are state inspected for our customers. In spite of our extreme care we give them, numerous conditions over which we have no control often govern. Such conditions may be but not limited to: weather, watering, planting site, improper planting, soil conditions, soil related root diseases, and improper handling of potted stock. Because of these conditions that we have no control over, it is impossible to guarantee continued plant health and growth of potted stock.

Customer acknowledges at pickup no warranties, credits or refunds on any potted stock and container grown. Under no circumstances shall the seller be liable for a sum which exceeds the total order. Potted stock must be inspected on day of pick up by the customer. All potted stock may vary in size as it is field grown and sold as field run.

JW OUTFITTERS GUIDED HUNTS
 www.jwoutfitters.com • 715-498-3696

Dear Laura's Lane Family,

Is it just me or does it feel like summer just began, hard to believe it's almost over and already thinking forward to next year and spring harvest. All the work that has already begun or completed from transplanting in the spring to fertilizing programs, weeding, nurturing and loving these little trees to grow into superior healthy seedlings and wholesale transplants. As fall approaches as always we do estimated inventory, like many business we are still having ripple effects from four years ago pandemic. Though we have geared up last year I wanted to remind everyone your little seedlings or transplants that you purchase take roughly two-six years before harvest, sorting, counting, packaging and stock currently growing and nurturing for your future orders. As I suggested last year I would get those orders in as soon as possible as we are already selling out on numerous varieties of transplants this year. For most of the state of Wisconsin we have needed to do little to no irrigation this season (as of late July) and if anything we have had too much rain. I feel for anyone that planted in low ground or hollows as I am sure those little trees had a hard time. On a positive note I am personally thankful we haven't had to pull out the big guns to keep our Christmas trees alive this year.

I look forward to seeing everyone in 2025 and rehoming the trees our family puts so much time and love into to beautify our great country and to possibly talk about whitetails as I personally load some of your orders in your vehicles. Thank you again for being loyal customers and God Bless.

Sincerely,
 Joseph A. Wheeler Jr. & Family

CLAIMS

- Buyer and no others must make any claims in writing within 5 days of delivery. Trees must be returned for replacement or refund.
- Buyer is responsible for return freight charges on any or all claims.
- Seller will make every effort to ship merchandise to buyer's shipping address on the date requested; however, Seller shall not be liable for reasonable delays caused by weather conditions beyond Seller's control. No cancellations are allowed due to weather conditions or coronavirus issues.
- Under no circumstances shall the Seller be liable for a sum which exceeds the total of the order.
- Not responsible for trees held beyond scheduled pick-up date.
- Seller shall not be liable for any or all stock damage or failure due to conditions over which we have no control such as weather (frost, flood or hail), watering, planting site, improper planting, soil conditions, soil related root diseases, and improper handling of plants.

STOCK QUALITY

- We do our best to produce healthy, viable plants for all our customers. In spite of the extreme care we give them, numerous conditions over which we have no control often govern results that customers may have with plants.
- Some of these conditions are: weather, watering, planting site, improper planting, soil conditions, soil related root diseases, injury and improper handling of plants. Because of these conditions of which we can exercise no control, it is impossible to guarantee planting results and continued growth of plants.
- All stock is state inspected and graded to meet and surpass American Association of Nurserymen grade standards, and packed very carefully for better growth and shape when transplanted.
